The Parameter of this machine

X,Y,Z Working Area	1200*1200mm
X,Y,Z Traveling Positioning Accurate	±0.03mm
X,Y,Z repositioning Positioning Accurate	±0.02mm
Table Surface	T-slot work table
Frame	Welding steel
X, Z Structure	Ball Screw
Y Structure	Hiwin Rail Linear Bearings and Ball Screw
Max. Rapid Travel Rate	24000mm/min
Max. Working Speed	22000mm/min
Spindle Power Motor	3kw water cooling spindle
Spindle Speed	0-24000RPM
Machine weight	270 KG
Machine packing size	2100*2100*1550mm
Drive Motors	Stepper system
Working Voltage	AC220V/50HZ single phase
Command Language	G code
Flash Memory	128M(U Disk)
Collet	ER16
X,Y Resolution	<0.01mm
Running Environment	Temperature: 0°C~45°C Relative humidity: 30%~75%
Compatible software	Auto CAD, cordreldraw, ArtCAM

The difference point between us with other factory

- ① Our guarantee period is two years
- ② we give customer 2G processing file for free. With it, machine can do more design work, and realize it value.
- ③ We use square linear with high precision
- ④ we installed the protective cover, this cover can prevent electrostatic/dust and looks more beautiful
- ⑤ This model also have some advantages in technical, if you interested can ask the data sheet from me.
- ⑥ We have many details operation video, when have any problem within short time we can solve it, while our technician can speak English, can communicate with you fluently .

Why most of the customer finally choose us .after compared

- ① we adopt 5 layers of the plastic film for packing the machine (inside of the wooden case have 3 layer, outside the wooden case have two layer), effectively avoid the rust problem caused by the long term transport by sea .
- ② we have many small instruction label, so this is more easy for the end user to operate the machine and far more safety (we are more professional in this line)
- ③ Our workshop very large, can satisfy to the large quantity order and in time delivery .
- ④ We have professional quality checking team, every set to the machine, have to check three times and then allowed send out .
- ⑤ Our Perfect after sale service:
 - 1.Friend, this kind of machine is quite mature, it seldom has problem. Now the internet is very developed, do the after sale sevice by Internet is a trend. We have 4G internet and phone, we can provide clear video anytime.
 - 2.After the machine finish and before it shiped, we test the machine at least 3 times. And we will totally according to your machine make detailed video, and take pictures to show you how to install the machine step by step. It is easy to learn.

3. When the machine arrives, we have professional after-sale personnel; they will guide you on how to install and operate the machine step by step.

4. We have a paid video platform; later we will give you the password. When you encounter any problem, you can make a video and upload it. Then we will know and tell you how to solve the problem. This is easy and convenient.
